

Dura-Bright® Wheel Wash

ALCOA

ACCESSORY PRODUCTS

Developed by Alcoa for Dura-Bright® wheels

Keep Dura-Bright® wheels clean and shiny with Alcoa Dura-Bright® Wheel Wash. It ensures proper cleaning and eliminates the risk of using too harsh cleaners that can potentially damage the wheel.

Especially designed for regular maintenance.
Safe for weekly use

QUICK CLEANING REFERENCE

Allow wheels to cool below 35° C (95° F).
Remove nut covers.

Rinse with water for at least 30 seconds.

Pour Dura-Bright® Wheel Wash in a bucket.
No need to dilute with water.

Clean the wheel.

Rinse the wheel.

Repeat at least weekly.

Please note that wheels with a heavy build up of disc brake dust should be cleaned first with ALclean as per the Service Bulletin Edition 2 and then regularly with Dura-Bright® Wheel Wash in order to maintain the wheels in the best condition.
