*Compared to exemplarily steel wheel weights with
same dimensions and load rates.

Fuel efficiency

Up to -1% Fuel usage

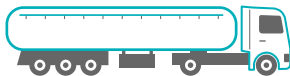

On hybrid buses with Alcoa® Wheels,
compared to steel wheels.

CO₂ reduction

Up to -3 tons CO₂ emission

Replacing 6 steel wheels with Alcoa®
Wheels on a 2-axle diesel city bus over
the 12-year lifetime of the bus and
750,000 km.

Up to -4 tons CO₂ emission

Replacing 12 steel wheels with Alcoa®
Wheels on a 2-axle truck and 3-axle
trailer over the lifetime of a truck
(2x5 years) and trailer (10 years) and
1,300,000 km.

Up to -5 tons CO₂ emission

Replacing 10 steel wheels with Alcoa®
Wheels on a 3-axle diesel articulated
city bus over the 12-year lifetime of the
bus and 750,000 km.

Innovative technology and timeless design

Dura-Bright® finish: proprietary surface
treatment that keeps your wheels looking
bright and shiny for years without polishing.

Regular cleaning with a mild detergent or
undiluted Dura-Bright® Wheel Wash will keep
the wheels shiny, even after hundreds of
washes and thousands of kilometers, reducing
maintenance costs.

See cleaning instructions
